OVER 100 COMPANIES

Have Operated in this Field, and Eighty Companies are Now Actively Engaged in this District—Composed of

CRITTENDEN, LIVINGSTON AND CALDWELL COUNTIES.

Mr J. M. Persons left Monday last for Mineral Point, Wis., to look after his mining interests in that section.

The Boone mines are running night and day, and are getting out a large tonnage of fluor spar per day.

The Wheatcroft Mining company near Mexico have closed down for the winter, will start up again about April first.

The Louisville-Marion Mining company are sinking a new shaft at the Trimble mines on the Leander White property, and expect to come down on a large body of fluor spar this week.

The Kentucky Fluor Spar company has resumed work at the old shaft at the Memphis. They have cleaned up one of the old levels, at the back and have found a large body of No. 1 fluor spar, of which they are taking out a number of tons per day.

Another mineral deal was made last week; Harry Watkins sold his interest in the Morganfield mining company to Mr J. M. Persons. The Morganfield Mining company's property is on the LaRue vein, and at the old LaRue shaft and is counted one of the best mines in this section, for lead and fluor spar, and also has a four foot vein of carbonate.

The Ohio Valley Coal and Mining company, who have conducted a large store in connection with their mining business for more than a quarter of a century, have sold their entire stock of general merchandise to Mr J. W. Sterrett, who has also done a very successful mercantile business in De Koven for the past twelve years, or longer. Mr Sterrett will combine the two stocks of goods which will make one of the largest stocks of merchandise carried by any one store in the county.—Sturgis Herald.

Jeff Beavin, who is chief hoisting engineer at the Tradewater mine, has not only beaten all the past records of the mine for hoisting coal but is continually raising his own record until he now just simply hoists as fast as they bring to the bottom of the shaft and then waits for more. It now appears as if there was no limit to the capacity of the Tradewater mine and the quality of the coal

has for years been known to be the best.—Sturgis Herald.

Uncle Vee Collins sold sixty-five more acres of land to Miller Bros. and Co. of Evansville for \$4600, and Miller Bros arrived at this point from their home city on yesterday morning's down packet and will at once put in about ten thousand dollar's worth of machinery at Lead Hill. It is also whispered that the spur of the new railroad now putting out to Lead Hill may be extended on to Cave-in-Rock and met at the river here from Marion by Crittenden county capital, Elizabethtown will endeavor to induce the Shawnee-town and Rosi Claire road into their midst, Leadbetter Bros. offering a thousand dollars, Mrs Helen Miller a thousand, and the other people there in like proportion, according to property valuation. We know for we were there only yesterday; and we feel that Elizabeth, too, should have this road—Hardin Era.

MINING PERSONALS

A. D. Noe returned from Morganfield Monday night.

Mayor J. W. Blue was in Evansville on business Monday.

Mr W. H. Tenme, the mining engineer of Tolu, passed through the city Monday en route to Paducah.

Our Carversville correspondent writes: On account of the water the Schoolfield-Spess mines shut down last week until April. At that date new and larger machinery will be installed that will do up to date deep work.

Below is a few facts about Crittenden county.

Crittenden has the largest, best and richest fluor spar field in the world.

Crittenden county has more tons of hauling fluor spar when the roads are good than all the rest of the world.

Crittenden county has some of the best lead and zinc mines in America.

Crittenden county has three large shipping stations for lead, zinc and fluor spar; Crayneville, Mexico and Marion.

Crittenden county has capitalists from all over America, dealing in our mining lands.

Crittenden county has a fine electric light plant at Marion.

Crittenden county has a fine summer resort at the Crittenden Springs, in the heart of the mineral belt.

Crittenden county has four fast passenger and mail trains running through Marion every day.

Crittenden county has a graded school at Marion that the whole State is proud of.

Crittenden county has two news papers printed in Marion that give us the cream of the news, both at home and abroad.

Crittenden county has a Commercial Club at Marion which is the best in the State to its age.

Crittenden county has a thousand and one other good things, that we have not the time and space to mention in this issue.

ATHEIST FELL DEAD.

Winnamac, Ind., Jan. 16.—The sudden death last night of Richard Bossey during church service in the Wilders Station Chapel has caused a commotion among saints and sinners alike.

Bossey had long been known as an atheist and is alleged to have said on various occasions that he had no use for churches. However last night he entered the church to seek shelter from the midwinter storm.

Soon after he entered Rev. Jas. McCarey made an earnest plea for Gospel recruits, and during his talk said: "There is one unbeliever in this congregation, a sinner, who can not be saved from death tonight unless he becomes a Christian."

The prophecy of the preacher was soon fulfilled, when Bossey, with an agonized cry of "Oh!" fell back in his seat a corpse.

FROZEN TO DEATH.

Terra Alta, Jan. 16.—M. Smith, aged 25, a Baltimore and Ohio brakeman of this city, was found frozen to death early this morning in a sitting position along the track on the seventeen mile grade, ten miles west of Piedmont. He fell from an Eastbound freight and was severely injured, but was able to walk some distance. Becoming exhausted from cold and the loss of blood, he sat down on the track.

The temperature was below zero and being helpless he froze to death. His elbow rested on his knee and his cheek on his left hand.

Passing school saw the man sitting on the track and called the attention of adults to the novel spectacle. It was found that the man was dead.

Having sold A. J. Baker one-third interest in our business, it is essential that we collect all outstanding accounts immediately. Those indebted to us will please call and settle without further notice.

Spiritual truths are only spiritually discerned. "If any of you lack wisdom, let him ask of God, that giveth to all men liberally, and upbraideth not, and it shall be given him." (Jas. 1:5). "But God hath revealed them unto us by His Spirit, for the Spirit searcheth all things, yea, the deep things of God." (1 Cor. 2:10). If we want the most out of our Bible Study and apprehend spiritual truths the clearest, we must come to our study in a spirit of devout prayer, depending upon the Holy Spirit for divine insight into the Truth of God.

SCRIPTURE READING.

The first miracle, John 2:1-11.

Only enough readings are given to keep you in touch with the regular Sunday-school lesson.

OUTLINE OF LESSON.

1. Christ gave his presence and blessing to all pure and elevating social gatherings.

2. His mother realized that he was more than human, and by her keen spiritual intuition, suggested the first miracle.

3. Christ would nothing before do "his hour" had come, yet, from the suggestion of his mother and the influence of the Holy Spirit, he realized that "the hour" had come, and he wrought the miracle.

4. It was a blessing.

(1) Temporarily to the hosts and guests.

(2) Spiritually, to the disciples.

SCHOOL OF PRACTICE.

1. Christ lent his assistance in time of an emergency: I will try to do likewise.

5. Christ made his social power a blessing: I will try to use my social powers to lead men Christward rather than to lead them inward.

SEARCH QUESTIONS.

1. What is a miracle?

2. Did Jesus work any miracles before his baptism?

3. Were miracles necessary to his mission?

4. What effect did they have?

5. How came Christ and his disciples to be invited?

6. Why did Mary make known the predicament to Christ?

7. What do you think of Christ's answer to his mother?

8. Was she out of her place in making this request?

9. If "his hour" had not come, why did Christ perform this miracle?

10. How much was a firkin?

11. Was all the water made wine, or just what they drew out?

12. What was the function of the governor?

13. What effect had this miracle?

ANSWERS TO QUESTIONS.

"In what did the royal genealogy differ from the human genealogy?" (Miss Maud Hughes, Pulaski, Tenn. (Matt. 1:17) gives the royal genealogy. It traces Christ's title to the throne of David and then fulfills the promise made to Abraham. It traces the genealogy from Abraham, the beginning of the chosen people through David and the royal line to Joseph, Christ's reputed father. 3:23-38, gives the human genealogy, beginning at Christ and tracing the genealogy through Mary, the mother of Jesus, to Adam, the first man. Joseph, in Luke 3:28, represents Mary in the genealogy, being her husband.

2. Why does Luke use different names in tracing the genealogy backwards from those that Matt. uses in bringing it forward? (M. H.)

In Matt. Christ descended from Solomon, David's son, and thus had a right to the throne; Mary was descended through Nathan, David's son, and thus they had two separate lines of progenitors. It is possible that these lines coalesced at times, and then separated again.

hibit by a couple of our regulars, who gave us a lesson in pugilistic tactics on Christmas eve; but as I am not well up in descriptive pugilistic parlance I shall have to decline further attempt and refer you to others who know how and enjoy telling them, as well as ever a fourteen year old negro boy enjoys eating ginger cakes and watermelons on August election day.

The frequent changes of weather from bad to worse is producing considerable untoward troubles in this place, but we report no serious illness.

Some tobacco is being sold, ranging in price from \$1.50 to \$5.00 around.

The tobacco house is idle here at present, which should not be the case.

This is a good tobacco center, and Marion, Princeton and Providence will get the crop again as usual.

Good wishes to the Press, contributors and readers.

Something New.

I have selected a list nearly four hundred volumes of standard high toned, and popular works on history, religious works, and books of fiction. And I propose for a very small annual fee to put these books into a circulating library at the disposal of the people of Crittenden county. They will be placed in repositories in different parts of the county to make them convenient to all. This will afford an opportunity for every one to have on hand constantly new and entertaining reading matter. A change can be had as often as you wish. The cost will be but little more than 25c per month, and a book for every day in the year if you wish. A good commission paid for soliciting subscribers and a large cash premium to the one getting the largest club. For particulars write to or see me.

IN A PIT WAS SAFETY.

Huntington, West Va., Jan. 12.

As the result of bravery of exceptional merit, John Ellis, turntable tender in the C. and O. yards, here, has been given a lifetime position with that road and a lifetime pass over its entire system, including even the steamers used by the company.

The westbound freight was just pulling into the upper end of the yards when something went wrong with the internal mechanism of the ponderous engine. The engineer got out and was looking the big machine over carefully when she suddenly leaped forward and, leaving the master behind, dashed down the line with no one in the cab save the fireman, whose knowledge of engineering had not yet reached the point where he could quickly control the machine.

The switch to the table had been left open, and down in the pit at his post of duty stood John Ellis. The freight dashed straight toward the pit and the table was out of position to catch it.

Ellis saw the danger and knew that the one chance to save her and perhaps the life of the fireman inside and his own as well, was to stay there and get the table track on line with that on which the freight was running.

Slowly the big table swung around into place just as the big engine dashed up and over the division onto the other side and stopped safe.

Had Ellis deserted his post a dangerous wreck would have been the result.

FREDONIA AND KELSEY.

Miss Lena Conger is home from a visit to relatives at Trenton, Ky. Clifton King, of Allensville, Ky. is the guest of friends here.

Nearly all of the ice houses in this vicinity were filled Monday.

Albert Boaz visited relatives near Dyonsburg Saturday and Sunday.

S. R. Boyd and wife and little son Baxter left Monday for California, for Mrs. Boyd's health; they will not return until spring and may locate there.

Tom King, of Princeton, was here Sunday evening.

Harry Martin and wife, Gilliam Wigginton and wife, and Bryant

Bennett all left for Tampa Florida, where they expect to make their future home. May they all prosper and enjoy good health.

The ladies of the C. P. church gave an oyster supper last Friday night; the night was unfavorable, but a large crowd was present and a nice sum was realized; the ladies were complimented for their nice supper.

Geo. W. Stone went to Marion Monday to look after the residence which he is having built there.

Milton Maxwell has been appointed postmaster at Kelsey, the former postmaster having resigned.

J. B. Ray, who runs the mercantile business in Marion, spent Sunday with his family here.

SALEM.

Few changes have been made in our town since last writing.

Rappolee & Summers have moved their stock of goods to Rappolee's store on the corner.

H. D. McChesney has moved his stock of goods to the house occupied by Rappolee & Summers.

After spending the holidays at home Gay McChesney has returned to Marion.

Putting up ice is the order of the day.

Mr. Shoecraft, an aged citizen of this place is not expected to live.

Rev. Eli Eaton has moved to his farm near Mullican.

E. L. Franklin has been on the sick list though we are glad to hear he is improving.

Born to the wife of R. A. Tordella, Jan. 11th, a boy.

Prof. Foster Babbs of Carmichael spent Saturday and Sunday in Salem.

Alley & Wooldridge shipped a fine lot of hogs from this place Friday.

A large crowd attended the trial Friday.

Supt. Zad A. Bennett has been here the past week writing reports.

We wish to say that our last year has been our best year in Salem, and for which we wish to thank every one; we also hope we may enjoy the same this year and that we will assure you the very best goods at the lowest price.

CONTINUED TO FIGHT.

Hillsboro, Ohio, Jan. 11. In a fight on Main street at 7 o'clock tonight, Edward Colvin shot and fatally wounded his cousin, Chas. Colvin, aged 13.

The elder Colvin was standing in a hallway when young Colvin and his brother came along, and a quarrel began, the origin of which is unknown. A moment later Ed Colvin fired a revolver from the inside pocket of his coat the ball entering the stomach of Chas. Colvin. Both the young Colvins continued their attack until bystanders separated the parties.

The pistol user was arrested but later released on bond. Physicians are working with the victim of the shooting and say his recovery is unlikely.

GOOD ROADS.

The almost impassable condition of roads in Crittenden and Livingston counties has apparently aroused the public. People of the two counties are finding out that about four months in each year of roads that are almost impassable, which to a degree has retarded the development of our mining industry. The initial expense of equipping mines and the constant expense of bringing in supplies has its weight with the investor, and the cost is frequently the difference between successful operation and the failure of a property.

The tone of the people from all parts of the two counties, also our new Commercial Club at Marion, which the majority of our mining people are members of, indicate that a general forward movement is on and systemic effort toward permanent improvement is receiving public attention; and we do ask the public to help us out along this line in order to assist us in the development of our latent resources. Money expended in the construction of permanent roads is not an expense, it is an investment that will return good dividends to the tax payer by adding assessable property to the rolls, a natural result of greater development.

The people of Crittenden and Livingston counties realize realizing the benefits that will follow are seriously taking up the question of permanent road construction. The Commercial Club of Marion, Ky., has been organized and the best methods of raising the money needed I understand is being discussed. The people evince a settled determination to make a start toward securing permanent roads, and in a few years this policy, if adhered to, will result in vastly increasing the mineral output of the country, and affecting favorably all interests of this section.

Yours faithfully,
Win. S. Lowery.

Mr. Wm. S. Crane, of California, Md., suffered for years from rheumatism and lumbago. He was finally advised to try Chamberlain's Pain Balm, which he did and it effected a complete cure. This liniment is for sale by Woods & Orme, druggists.

A WEE CHILD.

Frankfort, Ind., Jan. 11.—Goldie Sheets, a seven year old girl, who goes to school at Moran, near here, is a heroine in the eyes of the public for her rescue of Lizzie Deisinger, a young woman also a student at the Moran school. On her way to school this morning Miss Deisinger fainted and fell between the rails of the Vandalia railroad on a curve. She was discovered by the little Sheets girl, who could not move her from the track.

The little one knew that a fast passenger train was due in a few minutes and she ran one fourth of a mile to Moran where she fell exhausted as she told her story. Men ran to the scene and dragged Miss Deisinger from the track with the train less than one hundred feet away.

REVERIES IN FAD-DOM.

BY LEON.

It's funny to note the wornout fads And the new as the come in style, And the aptness of our fancies and lads To catch on in so short a time.

But fads are pretty and useful as well, Always pointing as distinguishing marks; To the brainiest dude and upper belle, As superior folk to the common larks.

But fads, like shoes, are soon worn out, And lose their convincing power; To prove to all that we've been about, And are up to date this very hour.

But we never lack, for new fad's rise, From whence? I know not where. May be, like the dew, from the skies, But go where you may, the fad is there.

From this we learn if we're apt at all, That fadish seeds are thickly sown, And on productive soil always fall, And that the fadless soul stands alone.

Then, if you have no fad, get you one, If you wish to be in the swim; Think it's better far to be a bun, Select your fool and be like him.

SHADY GROVE.

As nothing has appeared in the Press for some time from these parts it might be interesting to your readers to know that everything about Shady Grove is getting along fairly well. Nothing out of the usual order of things to report.

It is true that some of our specialists made some little effort during the holidays to remind us all that their parents were incapables.

Then, too, it might be well enough to mention our street ex-

PROSPECTS OF PEACE.

Doubassoff's Declaration in Paris Is Significant.

London, January 11.—Little else is talked about today among the war experts and in the diplomatic corps, except the statement of the Russian member of the North Sea Court of Inquiry, Vice Admiral Dubassoff, to the effect that Russia was about to give up the struggle with Japan for the present and postpone to some more favorable opportunity the carrying out of her plans in the far East.

The utterances of Admiral Dubassoff carry added weight from the fact that he has been in consultation with the Czar since the fall of Port Arthur and is therefore presumed to be acquainted with the feelings of his Majesty; while it is expected there will be no demand from St. Petersburg, and Admiral Dubassoff is apparently disinclined, it is the best impression here, that the interview is authentic, and that it was given with the knowledge and consent of the Government at St. Petersburg, and that it represents the present position of the Russian Government.

The criticism of the Russian navy bears out the practically unanimous opinion of British naval men who are acquainted with Russian naval affairs, that the fleet is inefficient, both as regards the ships and personnel. No man in Russia is better qualified to speak on this point than is Admiral Dubassoff.

The after results of the Admiral's frank statements will be looked for with the keenest interest. His statement that Russia will be prepared in the course of a few years to resume the fight for supremacy in the far East, is regarded as handsome, pure and simple. Japanese statesmen have shown that they are thoroughly well qualified to safeguard the interests of

their country, and it is not conceivable that they will consent, under existing conditions, to any terms of peace which will not make further Russian aggression so difficult as to be practically impossible. That she will demand and receive a heavy war indemnity is regarded as certain, and that the major part of this indemnity will be devoted, as was that received from China, to the building up of her navy is regarded as equally certain. If there has been one point demonstrated beyond a cavil in this war, it is that command of the sea is an absolute essential to the maintenance of Japanese power. That Japan realizes this fully, admits of no doubt. She can therefore be depended upon to at least keep pace with any shipbuilding program that Russia may undertake after the conclusion of hostilities.

Dr. Carlstedt's German Liver Powder is a wonderful remedy, a prescription used for over fifty years by an eminent German physician in his practice both in Europe and in his country and sold by thousands of druggists all over the world. So mildly natural are the effects of this remedy that all Kidney and Liver troubles give way to perfect health. It cures the worst cases and many have been cured who had tried every known remedy.

Symptoms of Liver Complaint: Dyspepsia, indigestion, flatulency, gout, skin eruptions, salivary gland enlargement, vertigo, headache, piles, pain in the back, melancholy, bad breath, fatty tongue, horrid taste, unpleasant dreams, insomnia, undue sleepiness, nausea, flatulence, swelling of the abdomen, colicky condition of the bowels, pain and soreness in the stomach, liver spots on the skin, loss of memory, impaired vitality, diarrhoeal discharges, lack of energy, indigestion, crankiness, blood poisoning, nervousness, falling hair—oh, there are lots of them and each one emphasizes the importance of having Dr. Carlstedt's German Liver Powder constantly within reach. It is the right thing in the right time, sure and certain in effect, pleasant and perfect in action.

For your own sake, don't neglect any of the symptoms of liver disorder or the complaint will become chronic and the ultimate, after untold suffering, is death. Woods & Orme can tell you all about Dr. Carlstedt's German Liver Powder; it has cured many of their customers who are recommending it to their friends. Better than testimonials in the guarantee under which Dr. Carlstedt's German Liver Powder is sold. It does not relieve and cure you it will cost you nothing, so go at once and procure the remedy and take along this guarantee.

STRANGE POWERS.

Lebanon, Ind., Jan. 12.—Harry Caldwell, aged 26, a nephew of ex-County Commissioner, John Caldwell, about threemonths ago, as a result of nervous prostration became a victim of catalepsy. After suffering severe pain he would become absolutely rigid, and he would lie, sit or stand in whatever position he was placed for many hours.

Since his first attack he has been endowed with remarkable powers of mind reading. He is able to tell how much money any one may have in his pocket, the number of coins and the dates upon them. He can tell to a minute the time as shown by a clock in another room. When a gardener was appointed for him by the circuit court of Boone county recently, the matter was kept an absolute secret from him. But during the afternoon of the day of the appointment he suddenly informed members of his family that a gardener had been appointed for him, gave the name of the latter, the amount of his bond and the name of his bondsmen.

Six weeks ago he was sent to a sanitarium in Indianapolis. During the time he was there physicians from all over the country came to investigate his case. All pronounced it one of the most remarkable that ever came to their knowledge.

Caldwell's nervous system is gradually breaking down, however, and for the past 60 days he has taken only such food as could be administered by hypodermic injection.

His body is reduced almost to a skeleton, and death seems only a few days distant.

Tonic to the System.

For liver troubles and constipation there is nothing better than Dr. Carlstedt's Little Early Risers, the famous little pills. They do not weaken the stomach. Their action upon the system is mild, pleasant and harmless. Bob Moore, of Lafayette, Ind., says: "No one taking Dr. Carlstedt's Little Early Risers do their work. All other pills I have used gripe and make me sick in the stomach and never cured me. Dr. Carlstedt's Little Early Risers proved to be the long sought relief. They are simply perfect." Persons traveling find Little Early Risers the most reliable remedy to carry with them. Sold by Woods & Orme.

MUZZLE BLEW OFF.

Washington, Jan. 12.—This official statement was today made at the Navy Department:

"While proving a 12-inch, 40 calibre gun and testing experimental powder at the naval proving ground, Indian Head, Md., this morning, the muzzle was blown off the gun. No one was injured and no other damage was done, as far as has been ascertained. The cause of the accident is not yet determined.

The powder used was a new form of smokeless, made in string 18 inches long. The powder now used in the service is made in octagonal grains. These have been criticised as giving an irregular pressure throughout the length of the gun. This was one of the theories of the accident by which the muzzles of two guns on the Iowa were blown off about a year ago.

I use Chamberlain's Stomach and Liver Tablets for indigestion and find that they suit my case better than any despesia remedy I have ever tried and I have used many different remedies. ACHIEVEMENT OF JAPS.

Tokio, Jan. 12.—The achievement of the Japanese at Port Arthur is more remarkable in the light of further investigations. The original Russian strength is found to have been almost 50,000 men. It is announced at the army headquarters that in addition to the prisoners already reported about 13,000 wounded combatants will eventually be brought to Japan. Gen. Nogi's headquarters staff at Port Arthur are at present devoting their energies to dispatching the prisoners to Japan, placing the wounded in hospitals and clearing the way for a thorough investigation of the spoils of war. Confused reports reach Tokio of the condition of the city buildings.

It was said today that Gen. Nogi will not return to Japan at present.

St. Petersburg, Jan. 12.—Government seemingly is about to make the irrevocable decision that prestige abroad and safety at home require the continuation of the war until peace with dignity can be secured.

Beyond this point, however, confusion exists, especially regarding the immediate development of the interior situation. Emperor Nicholas is apparently vacillating as to whether he shall allow M. Witte full sway.

Meantime the Emperor and his Ministers are daily threatened with Nihilist bombs and there is no knowing at what moment the fatal blow may fall.

PROSPECTS OF PEACE.

Doubassoff's Declaration in Paris Is Significant.

London, January 11.—Little news is talked about today among the war experts and in the diplomatic corps, except the statement of the Russian member of the North Sea Court of Inquiry, Vice Admiral Dubassoff, to the effect that Russia was about to give up the struggle with Japan for the present and postpone to some more favorable opportunity the carrying out of her plans in the far East.

The utterances of Admiral Dubassoff carry added weight from the fact that he has been in consultation with the Czar since the fall of Port Arthur and is therefore presumed to be acquainted with the feelings of his Majesty; while it is expected there will be no denials from St. Petersburg, and Admiral Dubassoff has apparently disclaimed, it is the best impression here that the interview is authentic, and that it was given with the knowledge and consent of the Government at St. Petersburg, and that it represents the present position of the Russian Government.

The criticism of the Russian navy bears out the practically unanimous opinion of British naval men who are acquainted with Russian naval affairs, that the fleet is inefficient, both as regards the ships and personnel. No man in Russia is better qualified to speak on this point than is Admiral Dubassoff.

The after results of the Admiral's frank statements will be looked for with the keenest interest. His statement that Russia will be prepared in the course of a few years to resume the fight for supremacy in the far East, is regarded as handsome, pure and simple. Japanese statesmen have shown that they are thoroughly well qualified to safeguard the interests of

their country, and it is not conceivable that they will consent, under existing conditions, to any terms of peace which will not make further Russian aggression so difficult as to be practically impossible. That she will demand and receive a heavy war indemnity is regarded as certain, and that the major part of this indemnity will be devoted, as was that received from China, to the building up of her navy is regarded as equally certain. If there has been one point demonstrated beyond a cavil in this war, is that command of the sea is an absolute essential to the maintenance of Japanese power. That Japan realizes this fully, admits of no doubt. She can therefore be depended upon to at least keep pace with any shipbuilding program that Russia may undertake after the conclusion of hostilities.

THURSDAY, JAN. 19, 1905.

For Representative.

We are authorized to announce
T. H. COCHRAN
of Marion, as a Candidate for Repre-
sentative from the counties of Crittenden
and Livingston, subject to the
action of the Democratic party.

In the Press today will be found
the announcement of Mr. Thomas
H. Cochran as a candidate for the
nomination to represent the coun-
ties of Crittenden and Livingston
in the next General Assembly of
Kentucky. Mr Cochran needs no
introduction at the hands of this
paper to the people of these two
counties. Who among these peo-
ple does not know, and admire and
love Tom Cochran, the Christian
gentleman, the honest merchant,
the steadfast friend?

Mr. Cochran has reluctantly
consented to allow his name to be
used in this connection and has
only done so at the urgent and
earnest solicitation of his party
friends. If he is successful in the
race it will be at the sacrifice of
his business interests and his per-
sonal inclinations (for he is a
home loving man) that he will
serve his constituents. But that
he will serve them faithfully and
with unswerving fidelity, no one
who knows him will doubt.

Mr. Cochran is peculiarly well
equipped for the position. In
disposition he is courteous, win-
ning and attractive; in mental
calibre he is equal to any; in judg-
ment he is sound; in principle
conservative but with a reserve force
that would become aggressive,
should an occasion serve. In fine,
he has all the elements fitted to
the position.

The growing interests of the
two counties require just such a
man as Mr. Cochran to look after
them at Frankfort—a man who
knows our needs and has the per-
sonal influence to forward them.

Should he receive the nomina-
tion and be chosen to represent
the district, we are assured that
the will reflect honor upon himself
and upon his constituents.

The recent vicious and seem-
ingly unprovoked attack on Governor
Beckham by Senator J. C. S.
Blackburn has been met by the
Governor in an open letter in
which he reviews the Senators
service, or rather lack of service,
to his party and the State during
his thirty years incumbency of of-
fice, and otherwise scores the aged
Senator numerically. Of all
men in the Democratic party in
Kentucky who have no room to
complain at the honors showered
on them for a generation or more,
we think Senator Blackburn
should be the last. For over a
quarter of a century he has been
at the public crib. We believe in
rotation in offices of all kinds for
people who want them. By what
right does Senator Blackburn
claim a perpetual lease on a seat
in the U. S. Senate? We think
he has been signally honored and
should step aside gracefully for
younger and equally as brainy
men.

The "stand patters" among Re-
publicans have downed the Presi-
dent on the tariff question and we
shall have no tariff legislation en-
acted by the present Congress.
While a total revision of the tariff
may not be called by the present
needs of the country, there are
certain schedules carrying prohibi-
tive war time rates on many of
the common necessities of life,
and their retention is not only a
great burden and hardship on the
common people, but a shame on
the law making branch of the
Government. If there were no
great trusts to placate in order to
obtain contributions for campaign
purposes, there would be no trou-
ble in obtaining a general reduc-
tion of schedules all along the line.
More's the pity.

The Eastern war is approaching
a very grave stage, and one which
threatens the peace of the entire
civilized world. It is stated that
a defensive alliance between Chi-
na and Japan would soon be an-
nounced. Russia has written the
Powers reciting the many instan-
ces wherein China has violated
the neutrality laws in favor of the
Japanese. Together with other
Powers this Government has
strongly remonstrated with the
Pekin authorities, pointing out
the extreme danger of their pres-
ent course. But just now Japa-
nese influence is all powerful at
the Chinese court and it is fear-
ed the alliance will be perfected.
This of course would array France
on the side of Russia and where
the matter would end no man can
foretell.

"No man is liberally educated
who has not learned to enjoy
God's 'out of doors.'"

Chipp Bros was awarded bronze
medal and G. N. McGrew a silver
medal at the St. Louis Exposition
on apples. This makes 17 medals
received on products of Living-
ston county. This is a record of
which she is justly proud, and
places this county in the foremost
ranks, in agriculture and horticul-
ture, with any in the State. Liv-
ingston Co. Democrat

One of the Republican mem-
bers of the Congressional Cam-
paign before whom the Edwards
Hunter White case is now being
tried is out in a card denouncing
the whole affair as a "disgrace to
the State and to the Republican
party." Well, he ought to know
whereof he speaks.

The Kentucky Legislature met
in Frankfort on the 13th inst. to
determine whether or not the new
State Capitol should be located on
the old site or some new one in
the vicinity of that city. It is to
be hoped they will obey expressed
public opinion and select a new
site.

The Livingston Democrat, No.
1, Vol. 1, has been received and
we must congratulate the manage-
ment on it. The old Banner edi-
tor, W. I. Clerk, is at the helm
and knows just what to do and say.

Congressman and Mrs. James
left Friday at noon for Washing-
ton, he having been summoned
home on account of the death of
Mrs. James' father, Rev. R. Y.
Thomas.

One million, seven hundred and
ninety thousand dollars in the
State Treasury and all debts paid.

A QUEER CASE.

Wooster, Ohio, Jan 13.—Thom-
as Queer, aged 98 years, mourned
as dead by wife and children for
forty years, died here this after-
noon.

Queer fifty odd years ago quar-
reled with his wife and left home
leaving Mrs. Queer with two daugh-
ters. After Queer had been gone
ten years word was received of his
death. Ten years since Queer re-
turned as mysteriously as he had
departed. He tried to effect a re-
conciliation with his family but
without success. Queer refused to
tell where he had spent the 50
years.

REFRESHING POEMS.

BY PROF. G. W. BROOKS, OF MARION.
This handsome little book has
just been put on sale and is meet-
ing with quite a flattering success.
Rev. Brooks is the Principal of the
colored school and is one of the
educated men of his race. His
attainments are such as deserve
the consideration of the people of
all creeds and colors, and we trust
he and his first book of poems will
be appreciated.

DEPORTED FROM MANILA.

San Francisco, Jan 16.—Miss H.
L. Lowrey of Cleveland, Ohio,
who has twice been deported from
Manila by the Philippine authori-
ties, arrived here yesterday on the
transport Sherman in charge of
an army nurse, Miss B. M. Gertch.
Miss Gertch says that Major H.
Carter, President of the Manila
Board of Health, thought her ac-
tions strange and ordered her sent
to this country to be turned over
to her relatives who were to meet
her in this city. These relatives
have been here several days wait-
ing for the arrival of the steamer.

Four years ago Miss Lowrey
went to Manila to take a clerkship
in the Civil Service, and after be-
ing there for several months she
started the American colony re-
Manila by trying to shoot Clerk
Albert Eastagan. The revolver
missed fire and she was then dis-
armed.

The act has been ascribed to two
motives, one that she was jealous
of his attentions to other women
and the other that he had been
talking about her. Miss Lowrey
said to day that the latter was the
true story.

New Firm.

Ira Pierce has purchased the interest
Henly Cochran, deceased, in the ma-
chine shop and the firm will now be
Adams & Pierce. The business is an
old established one and especially pro-
sperous on account of the vast mining
interests here. We bespeak for the
firm a continuance of past favors.

Mrs. David Dunn Dead.

Mrs. Addie Haynes Dunn, wife of
David Dunn, died at her home in Smith-
land, Ky., Wednesday morning at 2:30
o'clock. She was a cousin of Messrs. H.
A. and R. F. Haynes, of this city and
was well known here, where she fre-
quently visited when a girl. The fune-
ral and interment will take place Thurs-
day afternoon in Smithland.

NEW MILLINERY STORE.

We wish to call the attention of the
ladies of Marion and surrounding coun-
ty to the fact that we will open up in
Marion for the coming season, one of the
newest and most up-to-date Millinery
Store ever seen in your city. We have
secured the building owned by Mr. J. P.
Pierce for headquarters. We will open
as soon as possible. Watch for our
opening ad in this paper.

MINE ON FIRE.

Decatur, Ill., Jan 16.—Emil
Knorr, August Yaguh and Chm.
Lachinsky, miners, are known to
be dead and a score or more of
other miners are entombed by fire
and smoke in a 600-foot coal mine
shaft. Rescuing parties have gone
into the mine, but have been un-
able to do anything on account of
the dense smoke. The fire broke
out this afternoon in the main sta-
ble. Firemen were called out and
they took a line of hose down the
shaft 600 feet but were unable to
suppress the flames. A mile dis-
tant is an escape shaft, and to this
most of the miners hastened, but
more than a score were cut off and
held prisoners. They may be dead.
Big crowds surrounded the mouth
of the shaft but the onlookers
were helpless to aid the imprison-
ed miners.

MISS AGNESS WATKINS

The talented and attractive Marion girl who was the winner of the "Press-Prize Piano." She is now visiting relatives in West Virginia. Miss Watkins' success is another indication of the prosperity in the Crittenden county mineral business. The miners lay, little, old and young rallied to her support with their votes "first, last and all the time." Do you wonder at it since seeing her picture?

For Sale—Lots No. 1 and 3 in Reed addition to the city of Marion in Block F. Price, \$125. One thousand shares mining stock with each lot.
THURCE BENNETT.

Dr. E. B. Hardin, of Livingston county has decided to move to locate at Morton's Gap for the purpose of practicing the profession of dentistry. He comes well recommended, both as a worthy gentleman and as well equipped in the profession. The hustler wishes him success and gladly welcomes him to our county.—Madisonville Hustler.

At a congregational meeting held Tuesday night at the Cumberland Presbyterian church at which there was a full attendance the resignation of Rev. J. F. Price was discussed, and the church refused to accept his resignation without further consideration on his part. The church and the community are united in this matter. The session was sent to notify Bro. Price and he thanked them very feelingly and promised to take the matter under prayerful consideration and to reply as soon as he could conscientiously decide the matter. The Press, along with everybody else hereabouts "objects" to Brother Price leaving Marion. His influence and kindly counsel are appreciated by all who know him.

Prize Winners in Children's Story Department

Last spring we promised that we would distribute \$10 in prizes among the little boys and girls who wrote the best stories for the Press before Xmas. We were much gratified with the results and during the year we received a great many stories which we submitted to competent judges, who decided that Miss Audie Carter, of Lova, was entitled to the first prize, \$5 in gold; Miss Ellie Woodford, of Salem, second prize \$2 in gold; Virgil Love, whose address we have lost, Inez Hunt, of Marchessault, Mo., one dollar each.

Mrs. S. M. Jenkins entertained a few friends last Friday afternoon in honor of Mrs. Mary Jenkins, of Eddyville.

IN SOCIETY.

In honor of her mother, Mrs. Julia Harris, of Brunswick, Mo., who has been her guest this winter, and of Mrs. Mary Jenkins, of Eddyville, who is spending the month with her son, Mrs. S. M. Jenkins, Mrs. Sidney Thompson Dupuy entertained last Tuesday afternoon. She was assisted by Mrs. John L. Tinkin and Mrs. S. M. Jenkins.

Besides the hostess and her assistants and guests of honor, there were present the elite of the city to enjoy Mrs. Dupuy's hospitality. Among those who topped were Mesdames Mary Hibbs, Josephine Adams, Wm. Wilson, Emma Hayward, Stephen Hunter, Newton Walker, V. Y. McTee, M. H. Jones, J. V. Guthrie, F. D. Tucker, R. H. Woods, David Woods, E. J. Hayward and many others.

Refreshments were served and old fashioned and delightfully pleasant afternoon was spent, particularly so as an acquaintance and friendship extending over three generations has existed between Mrs. Jenkins and Mr. Dupuy's ancestors in the halcyon days of old Eddyville before the war, when that city and Smithland were rivals for the commercial supremacy of Western Kentucky.

Miss Muriel Freeman entertained a number of her friends on last Thursday evening to celebrate her eighteenth birthday.

Games and contests were indulged in; the most enjoyable one being the Penny contest. Mr. Henry Haynes won the prize being the most successful guesser in all the contests.

Delicious refreshments were served, and the evening was very much enjoyed by all. Those present were Misses Mabel Guess, Maud Hurley, Susie Gilbert, Nell Thomas, and Muriel Freeman, Messrs. Henry Haynes, Maury Nunn, Curtis Asher, M. E. Spalding, Virgil Moore, Pressly Guess and Howard McConnell.

Charlie Loyd, Fredonia, carries a stock that would do credit to a much larger town, and he is now offering some special bargains.

TARIFF REVISION.

Washington, Jan. 10.—The President favors the earliest possible action looking to a revision by Congress of the tariff. He so informed the Senators and Representatives who were in conference with him in the White House last Saturday, and he has made public his position to others since that conference. He will call the Fifty-ninth Congress in extraordinary session as soon as the committees have indicated that they are prepared to submit a tariff measure for passage.

One of those present at the conference Saturday said today the President informed that while he did not believe in any sweeping revision of the tariff, and would abide absolutely by the judgment of the two Houses of Congress, yet he did think the time had come when the schedules should be thoroughly examined and there should be a readjustment of some ones. The President added that his own view was that the special session should take place as soon as the committees of the two Houses could come to an agreement on a bill.

If they took this view he said he would hold himself ready to call the extraordinary session at whatever time the members of the two committees, and especially the House Committee on Ways and Means, should inform him they were ready with their report. If Congress should act on the tariff question in accordance with the President's desire it was made perfectly plain today that the extraordinary session would be called during the coming spring.

CARRIED THE BABY.

Nashville, Ind., Jan. 12.—Mrs Sarah Axom, aged 28, living near Ellettsville, this county, arose from her bed in her sleep last night and without disturbing her husband took her ten months old baby, wrapped it in a blanket, and in her night clothing, without shoes, started to her sister's home, about a mile away. Upon arriving there at 2 o'clock, a. m., she knocked on the door, and when a call rang out "Who's there?" she awoke and began to scream. She was taken in to the fire and her feet were found to be frozen. The child was uninjured. The husband, who had awakened and followed her tracks in the snow, arrived shortly afterward.

SAVED MY LIFE.

That's what a prominent druggist said of Scott's Emulsion a short time ago. As a rule we don't use or refer to testimonials in addressing the public, but the above remark and similar expressions are made so often in connection with Scott's Emulsion that they are worthy of occasional note. From infancy to old age Scott's Emulsion offers a reliable means of remedying imperfect and weak development, restoring lost flesh and vitality, and repairing waste. The action of Scott's Emulsion is no more of a secret than the composition of the Emulsion itself. What it does it does through nourishment—the kind of nourishment that cannot be obtained in ordinary food. No system is too weak or delicate to retain Scott's Emulsion and gather good from it.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

HELD TO THE THROTTLE.

Mt. Vernon, Ohio, Jan. 12.—L. M. Bonham, a Cleveland and Columbus engineer, was found dead in his cab a short distance south of here this morning. A terrible hole in his head indicated that while looking out the cab window he had been struck by some object.

The lifeless body was discovered by the fireman, with his hand cold in death still gripping the throttle of the engine. It is supposed that the train ran many miles before the dead body of the engineer was discovered. Bonham lived in Columbus.

No More Stomach Troubles.

All stomach trouble is removed by the use of Kodol Dyspepsia Cure. It gives the stomach perfect rest by digesting what you eat without the stomach's aid. The food builds up the body, the rest restores the stomach to health. You don't have to diet yourself when taking Kodol Dyspepsia Cure. J. D. Erskine, of Attleville, Mich., says: "I suffered heartburn and stomach trouble for some time. My sister-in-law has had the same trouble and was not able to eat for six months. She lived entirely on warm water. After taking two bottles of Kodol Dyspepsia Cure she was entirely cured. She now eats heartily and is in good health. I am glad to say Kodol gave me instant relief." Sold by Woods & Orme.

REVIVED BY FIRE.

Paducah, Ky., Jan. 10.—Still and apparently dead, John Davidson, a farmer of this county, was found in his wagon this morning near the southern end of the city. Cind Reeder, who made the discovery, called Coroner Jas. Crow and Undertaker Pool, who went to the scene with an ambulance. They carried the man to a nearby house when a hot fire soon revived him.

Davidson states he had been drinking and hired a boy to take him home in his wagon about ten o'clock the night before. The two got into a quarrel and the boy left him. The farmer fell back in his wagon and went to sleep. His condition is serious.

Saved From Terrible Death.

The family of Mrs. M. T. Bobbitt, of Hagerston, Tenn., saw her dying and were powerless to save her. The most skillful physicians and every remedy used, failed, while consumption was slowly but surely taking her life. In this terrible hour Dr. King's New Discovery for consumption turned despair into joy. The first bottle brought immediate relief and its continued use completely cured her. It's the most certain cure in the world for all throat and lung troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at Woods & Orme's drug store.

ARIZONA FLOODED.

Phoenix, Arizona, Jan. 10.—The big rainstorm continues, the total precipitation for the two days being three inches, more than half as much rain as fell here during the entire year of 1904. All the rivers are booming and the canals are full.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Nagasaki, Jan. 9.—One thousand wounded Russian prisoners from Port Arthur have arrived at Dai-ni Hospital.

It is estimated that the original Port Arthur garrison numbered about forty thousand men, and of this number about ten thousand are dead.

HAMPTON

(Delayed Letter.)

The Christmas Tree and pond supper at Mr. J. A. Wright's on Saturday evening was a grand success. A large crowd attended and after all had assembled around the tree, which was loaded with nice presents, Miss Addie sang a song, "Merry Christmas Bells," then bells were heard in the distance, a loud "Whoa!" and Santa and his wife appeared on the scene.

After they had distributed the many nice presents supper was announced.

The table was decorated beautifully and contained a bountiful supply of delicious cakes, candies, nuts, etc.

The remainder of the evening was spent in pleasant conversation, and in listening to Miss Addie perform on the piano. The guests dispersed in the spirit of "Peace on earth, good will toward men."

On New Year's day there was a family reunion at Mr. and Mrs. K. C. Adams'. It was certainly a nice affair, and all present enjoyed a pleasant day. Mrs. Adams proposed everything that could be thought of for dinner. She is indeed an excellent cook.

After dinner all joined in singing praises to Him who doeth all things well. None but the family attended, except Misses Davis and Wright.

Parties, parties till you couldn't rest. There was a pound supper at Mr. Underwood's on Wednesday evening; one at Ernest Sanders' Friday; also a box party at Will Abell's; one at Mrs. Culver's, on Monday evening; and a play party at Mr. L. T. Worton's Thursday evening.

Taken all in all we have had a lively time here during the holidays.

A Very Close Call.

"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. M. Bellamy, a locomotive fireman, of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters, and after taking it, I felt as well as I ever did in my life." Weak, sickly, run down people always gain new life, strength and vigor from their use. Try them. Satisfaction guaranteed by Woods & Orme, druggists. Price 50 cents.

IN CONFEDERATE DRESS.

Little Rock, Ark., Jan. 12.—Governor Jefferson Davis was inaugurated for his third term this afternoon. The oath of office was administered by Chief Justice Joseph M. Hill. The Governor then delivered his lengthy inaugural message to the joint session of the general assembly.

The Governor wore his full Confederate uniform of gray, which attracted much comment. In his address he launched into a bitter attack on the negro race, declaring that they were not fit to be educated. He advocated the separation of a school taxes, devoting only the amount paid by the negroes themselves to negro schools. This would close up nine-tenths of the negro schools now in that State.

BLACK-DRAUGHT STOCK and POULTRY MEDICINE

Stock and poultry have few troubles which are not bowel and liver irregularities. Black-Draught Stock and Poultry Medicine is a bowel and liver remedy for stock. It puts the organs of digestion in a perfect condition. Prominent American breeders and farmers keep their herds and flocks healthy by giving them an occasional dose of Black-Draught Stock and Poultry Medicine in their food. Any stock raiser may buy a 25-cent half-pound air-tight can of this medicine from his dealer and keep his stock in vigorous health for weeks. Dealers generally keep Black-Draught Stock and Poultry Medicine. If yours does not, send 25 cents for a sample can to the manufacturer, The Chattanooga Medicine Co., Chattanooga, Tenn.

ROCHESTER, GA., Jan. 20, 1902.
Black-Draught Stock and Poultry Medicine is the best I ever tried. Our stock was looking bad when you sent me the medicine and now they are getting so fine. They are looking 30 per cent. better.

Equality of Man the Inspiring Thought of the Ages

By MICHAEL J. JORDAN,
Former President of the Irish Charitable Society.

IT HAS been said that the only reality is an idea. Whether this is true or not, it is safe to say that no reality has more strongly impressed itself upon the minds of reformers in all ages, and, I think, been fraught with more benefit to the human species than this idea of equality, when properly understood.

Doubtless there are many good Americans who believe that this principle, as set out in the declaration of independence, was the first proclamation of the equality of man, that it had never been previously asserted, and that the signers of the declaration were its first political sponsors. It may be noted in passing how few accurately quote the words of the declaration—"all men are created equal," and also that the words of the constitution of Massachusetts, embodying a similar idea, are not the same—"All men are born free and equal."

To understand the meaning of the words it will be necessary to glance at their origin. Herodotus tells us the government of the many has the most beautiful name of all—in Greek, "esonomia," or equality. Seneca evidently had before him the idea of similarity of rights when he said: "The chief part of equity is equality." But it was from the old Stoic philosophers that the Roman lawyers took the idea and declared: "Omnes homines natura aequales sunt"—all men by nature are equal. This was strictly a principle to be followed in the administration of law. The law should make no distinction between men of any race or clime. The idea was well known in later days in Europe and probably influenced Louis X. of France in the preamble to his decree emancipating the serfs, as may be judged by these strong words: "Whereas, according to natural law, everybody ought to be free." Rousseau, and the French philosophers known as the encyclopedists, for the purpose of attaining the social and legal status of the great masses of the French people, asserted the equal rights of all men. This is the meaning of equality as contained in the great baptismal vow of the American nation—the declaration of independence.

It does not, of course, mean that all men are created equal in the sense that their taste, color, height and weight are equal. It does not mean that the material wealth of one man should not be greater than that of another. It simply means, as its history clearly implies—for there is no doubt that the idea came to America from the French philosophers to whom I referred—that all men are equal before the law. In the former sense Balzac well says: "Equality may be a beautiful theory, no one yet has seen it an accomplished fact." In the latter sense it is according to Sir Henry Maine, a principle "which has most thoroughly leavened modern opinion, and which promises to modify most deeply the constitution of societies and the policies of states." In this sense it has made America

A land where girl with friend or foe,
A man may speak the thing he will.

Incompetent Teachers

By PROF. CAMILLO VON KLENZE,
Of Germany.

The teachers are really charming fellows and it would be a pity to turn them out, but they are essentially bad.

The Americans are trying unsuccessfully to ape German methods. The German boy is trained in the gymnasium and properly fitted to take up university work, while the average American boy is poorly prepared to do university work when he is admitted to the university. Few American boys know what they want to study or why they want to study it when they go to college.

Not so in Germany. There the boy fits himself to take up a certain university work. When the American boy goes to college and the American method of university teaching is applied it fails to work.

The trouble is that the Americans have their college and university methods mixed and few of the teachers know which method to apply or how to apply it.

Comparatively few men of the first intellectual class are going through college. Our students don't know exactly what they are going to college for. They don't know what modern education means. We turn out hundreds of "Ph. D.'s" who take their "Ph. D.'s" simply to get a job. They ask for the doctor's dissertation as they would for a glass of water. Then they plod through it and when it is finished they leave this field for life, if employment in some other field presents itself. Some have done a little work in a little field and are absolutely good for nothing else. They feel a claim to greatness because they have plodded over their doctor's thesis and have been given the hood.

American university teachers do not keep in touch with the trend of things. They bottle themselves up in their specialty and stay there.

Children Should Be Heard

By MRS. M. N. VAN VLIET,
Chicago.

It is time we outgrew the old adage "Children should be seen and not heard." In justice to the child and in harmony with the most approved modern methods

of discipline and development of child nature the adage might well be revised to read: "Children should be heard as well as seen."

Children have their rights in the home as well as father and mother. One of these rights is to be heard. To be constantly suppressing the impulse of the child to give expression to its thoughts retards mental development, prevents the cultivation of the faculty of thinking clearly and speaking concisely and fluently, and destroys that poise and self-reliance and independence of thought which are so essential in the grown man or woman. We cannot expect that the adult is going to possess these desirable qualifications, if for the first 15 years of its life it has known nothing but repression and suppression, and its opinions have been scorned as of no weight or value.

It is just as impolite and shows just as bad breeding to cut off your child in conversation as to cut off your visitor. And you cannot expect that your child will have respect for your conversation and opinions, if you do not show like consideration for its conversation and opinions, when honestly expressed. Let the children be heard!

WE'LL MEET YOU HALF WAY.

An electric line from Paducah to Smithland is both a possibility and a probability, and not far in the future.

Some of the advantages of such a line are as follows:

Give Smithland direct and easy connection with the railroad.

Quick mails and an express line.

Easy market for perishable produce.

Development of the Panhandle section, the richest portion of the county.

Bring more people to town and thus help our local merchants and hotels.

Business men could and would live in Smithland and pay tax both in the city and county.

Raise the price of property along the line from 25 to 50 per cent.

Give Smithland electric lights and water works.

If a line like this were once started it would only be a question of a little while when it would connect with Marion, making three county seats on the route. It would certainly pay handsome dividends, in money and in the ever lasting gratitude of all the people of the county.—Banner.

A life saved by FOERG'S REMEDY

the great blood purifier

Read this grateful letter from a prominent Kentuckian

Princeton, Ky., Feb. 4th, 1903.
I wish to state for the Foerg Remedy Co. of Evansville, Ind., that I believe their great Remedy, known as Foerg's Remedy, the great blood purifier, saved my brother's life some ten years ago. He was troubled with a blood disease, and it seemed he could get no relief until he took Foerg's Remedy, same as manufactured by this company. After taking five bottles he was entirely relieved of his trouble, and when he died five years ago he was entirely well of that disease. I also took two bottles as a blood purifier and was most benefited.
(Signed) C. H. LEWIS, Princeton, Ky.

AND HERE'S THE REMEDY
I was warned is forewarned—let this warning sink deep in—obtain from us or from your druggist a trial quantity of the Remedy, test its efficiency the first time you use it, and you will find it so good that you will convert to the virtue and strength of this marvelous blood remedy—from then on you will refuse to be without it until your cure is effected. Why take chances? Why procrastinate a single day? Act now.
Price \$1.00 per bottle, six bottles for \$5.00

CONSUMPTION

WORKS WITH STEALTH

First, a slight Throat or Lung Trouble, a little neglect or indifference on the part of the patient—then Consumption! This has been the tale told of many a wasted life. The one truly scientific prescription against this dread disease is

DR. OTTO'S SPRUCE GUM BALSAM

FROM THE RED SPRUCE TREE

If you have a cough you do not need an expectorant, but a soothing specific to throw off the phlegm without coughing or straining. Dr. Otto's Spruce Gum Balsam, allays inflammation, heals the lungs and strengthens the respiratory organs, thus imparting a vigorous energy to the whole system. Invaluable for Coughs, Colds, Whooping Cough, Croup, Bronchitis, Asthma and Sore Throat. GET THE BEST.—All substitutes are fictitious imitations of the genuine. Per bottle, 25c and 50c.

Lemuel Downes, of Warwick county, Ind., writes: "I had a severe cold, for nearly three months. Tried everything. Thought it was a lung trouble. I was told to get Dr. Otto's Spruce Gum Balsam, and I got a bottle of Dr. Otto's Spruce Gum Balsam. After taking the first dose I felt a change. I took several bottles and was entirely cured. I have cured my children of the cough by using Dr. Otto's Spruce Gum Balsam. One to two doses brings relief and the balance of the night. Would not be without the balance of the night. Would not be without it."

CHAPEL HILL.

A very cold wave over this section.

The health of our community is fairly good.

Some few of our farmers have plowed a little; there is less broke this fall than for many years.

Some changes in location with some of our friends: Will Ward has moved to the Everett Bebout place; Horace Williamson will move to Mr. Bird's place, close to Fredonia; Albert Walker has moved to the Packet close to Chapel Hill.

While passing Mr. J. N. Hill's house, they being away from home, I heard a rumbling in the house and I looked and there was a hog into a churn of cream and he had done his best on the churning he could but he had made a gon of it and had the cream all over him and he was as white as you please.

Sunday was Bro Thompson's day for our regular meeting, with a nice little crowd in attendance.
